---

Good afternoon,

We will be holding a Wild Rice Advisory Committee in St. Paul at the MPCA's lower level conference rooms on Tuesday, January 17 from 1:30 -4:30 p.m. We will be discussing the draft rule language and if there is time we will be discussing the Cost Components of the Draft Regulatory Analysis introduced at the last meeting. If we are not able to get all the way through a discussion of the cost analysis, we will continue that discussion on January 25 in Duluth.

I am attaching an agenda, and a updated version of the draft rule language as we have been working on this since the last meeting. The Cost Components of the Draft Regulatory Analysis is attached again as well. Also attached is a detailed summary of feedback MPCA received from several wastewater permittee listening sessions MPCA held in October 2015., which we have been asked to share with advisory committee members.

We are also preparing a flyer to be used to publicize the three open houses we will be having in January in St. Paul, Duluth and Mountain Iron. I will send this out tomorrow and you can share with others you know who might be interested in attending.

For those of you who would like to call in to the meeting, the conference call in number and code are listed below. I am attaching a parking map for the MPCA St. Paul offices. Please remember to register your car with the guards at the front desk. We look forward to seeing you next week.
